

PUTTUR PRAVEEN KUMAR

CAREER OBJECTIVE

To obtain a challenging position as a Full Stack Developer where I can utilize my skills in Angular, .NET Backend, HTML/CSS/TypeScript, and Azure DevOps to contribute to innovative projects, grow professionally, and deliver high-quality software solutions that add value to the organization.

QUALIFICATION

2022 - 2025	Computer Science and Design K S Institute of Technology, Bengaluru CGPA - 8.02
2019 - 2022	Diploma in Computer Science BES Institute of Technology, Bengaluru Percentage - 78%
2019	SSLC Satya Seva High School, Bengaluru Percentage - 66%

PROFESSIONAL EXPERIENCE

Mphasis Ltd.

Feb 2025 – May 2025

Trainee Associate Software Engineer

- Developed web applications using AngularJS, TypeScript, HTML, and CSS.
- Built backend APIs and services using .NET Core and SQL Server. Used Azure
- DevOps for source control, task tracking, and CI/CD pipeline setup.
- Integrated frontend with backend APIs and ensured smooth data flow.
- Worked in an Agile team and participated in regular sprints and reviews.
- Deployed applications to Azure App Services using automated pipelines.

Sysnut Technologies

June 2025 – Present

Full Stack Developer - MEAN/Expo React Native

- Built a multi-tenant Asset Helpdesk platform using Angular, Node.js, and MongoDB, featuring SLA automation, role-based access, real-time notifications, and tenant-level SMTP settings.
- Implemented Account & Tenant Settings (Profile, Password, Preferences, SLA, Mail) with advanced validation and secure REST API integration.
- Developed NextEduAI, an AI-powered School ERP + LMS ecosystem built with Angular (Web) and Expo React Native (Mobile) apps.
- Integrated RAG (Retrieval-Augmented Generation) for intelligent PDF chat, enabling AI-driven search, summarization, and contextual answers for teachers and students.
- Set up CI/CD pipelines via GitHub Actions to automate builds, tests, linting, versioning, and deployment on merge to main.
- Hardened production environments with environment-based configs, health checks, structured logging, and proactive monitoring.
- Integrated Agentic RAG with self-reflective reasoning and memory-based retrieval, powering adaptive, context-aware AI assistance within the NextEduAI School ERP + LMS ecosystem.
